

Société de Chimie Industrielle

Founded 1918

Société de Chimie Industrielle Undergraduate Fellows at New York University

Last Name	First Name	Original Institution	Project	Summer of
Macbeth	Alexandra	New York University, Chemistry major	Synthesis of tetrapod-shaped colloidal particles	2017
Shin	Jaewoo	New York University, Biochemistry major	Investigating proteasome mobilization during amino acid starvation using super-resolution microscopy	2017
Tseng	Robert	New York University, Biochemistry major	Time lapse microscopy of temperature control during self-assembly of 3D DNA crystals	2017
Berdan	Viktoriya	New York University, Chemistry major	Development of synthetic inhibitors for a recalcitrant protein-protein interaction involved in the induction of myeloid leukemia.	2016
Heitmann	Tyler	New York University, Biochemistry major	Synthesis of Chiral Triazabicyclodecene Derivatives as Catalysts for Organic Syntheses.	2016
Morgan	Chloe	New York University, Biochemistry major	Investigation of how mutations enable multidrug resistance in bacteria using solid-state nuclear magnetic resonance spectroscopy.	2016
