

Société de Chimie Industrielle

Founded 1918

Société de Chimie Industrielle Fellows at Columbia University Department of Engineering

Last Name	First Name	Original Institution	Project	Summer of
Hu	Bonnie	Columbia University, Chemical Engineering major	Direct contact charge electrophoresis with particle shape	2017
Reed	Kelsey	Columbia University, Chemical Engineering major	Aerosol sulfate production in extreme air quality episodes	2017
Robinson	Jacob	Columbia University, Chemical Engineering major	Enhanced catalytic activity on membrane-coated electrocatalysts for use in direct alcohol fuel cells	2017

Almazan	Ariana Garcia	Columbia University, Chemical Engineering major	An examination of polymer grafted nanoparticle composites for use in membrane separations.	2016
Kim	Keun-il	Columbia University, Chemical Engineering major	Investigating the spatial-temporal variation of reactant species in photocatalytic suspension reactors for solar fuels production	2016
Rodriguez	Alexandra	Columbia University, Chemical Engineering major	Hydrometallurgical improvements in copper mining by chemical- and bio- leaching	2016
